- Illumination engineering	- Pipeline construction
- Security technology	- Construction, demolition and foundation laying
- Network engineering	- Price signs (led and roller blind)
- Communication technology	- Illuminated advertising signs
	- Cathodic anticorrosive

Industrial engineering	Multidisciplinary Services
- Automation technology	- Facility Management
- Cabinet engineering	- Turnkey projects
- Industrial installations	

Corporate principles:

We constantly aim to satisfy customers' needs by providing an exemplary level of service, sound technical advice and quality at its best. Smooth handling as well as reliable and punctual realization of diverse projects is assured by central project controlling, employment of CAD and CAE systems in planning and construction, application of a comprehensive quality management system, according to the standard ISO 9001, and workplace safety on the basis of SCC. Moreover, keipp elektro-bau-technik GmbH is committed to environment-friendly use of materials and process design.

To maintain this level, our aim is to realize everything with our own professional and trained workforce.
